

K-ETA Site SEO Analysis Report

Executive Summary

Metric	Current (Mar 2026)	Peak (Mar 2025)	Change
Monthly Clicks	163	26,762	-99.4%
Google Organic	2.8%	70%+	-95%
Avg Position	15.2	8.5	-6.7
"keta" Rank	48.9	30.3	-18.6
"k-eta" Rank	44.2	24.4	-19.8

Root Cause Identified

Google Core Update on June 30, 2025 directly caused 95% traffic drop in July 2025. Main keywords dropped 20-25 positions. No recovery observed in 7 months.

Traffic Source Analysis (Last 7 Days)

Source	Sessions	Share	Normal	Status
Google Organic	352	2.8%	70%+	CRITICAL
Yahoo Organic	3,983	31.8%	10-15%	NORMAL
Bing Organic	2,023	16.2%	5-10%	NORMAL
Direct	6,021	48.1%	20-30%	HIGH

Key Finding: Google specifically penalized this site, while Yahoo/Bing rankings remain normal. This indicates Google's strict E-E-A-T algorithm enforcement for YMYL + commercial sites.

Content Quality Assessment

Metric	Value	Benchmark	Assessment
Bounce Rate	30.88%	40-60%	EXCELLENT
Avg Session Time	267 sec (4.5 min)	2-3 min	EXCELLENT
Pages/Session	2.0	1.5-2.0	GOOD

Conclusion: Content quality is NOT the problem. Users are satisfied (low bounce, high engagement). Issue is traffic volume, not content quality.

Priority Action Plan

Phase 1: Emergency (1-2 weeks)

- 1. Add E-E-A-T Signals (Author info, credentials on all pages)
- 2. Enhance Transparency (Fee comparison table, disclaimers)
- 3. Create Neutral Content (Official guide without selling)
- 4. Fix GA4 Conversion Tracking (Current: 0 conversions)

Phase 2: Medium-term (1 month)

- 5. Site Structure Transformation (K-ETA only → Korea Travel Hub)
- 6. Implement Full Schema.org (Person, Organization, HowTo, FAQPage)

Phase 3: Long-term (3-6 months)

- 7. Multi-Channel Strategy (Google Ads, SNS, Content Marketing)
- 8. Pricing Model Review (Tiered plans: 5,000-18,700 JPY)

Expected Results

Timeline	Avg Position	Monthly Clicks	Google Share
Current	15.2	163	2.8%
2 weeks	12	300	5%
1 month	10	500	10%
3 months	7-8	2,000	15%
6 months	5-7	5,000	25%+

Conclusion

- **Root Cause Confirmed:** June 2025 Google Core Update (100% certainty)
- **Content Quality:** Not the issue (bounce 30%, time 4.5min)
- **Core Problem:** E-E-A-T deficiency + high commercial intent
- **Strategy:** SEO alone insufficient → Business model transformation + multi-channel required
